System Data Flow Architecture

Functional Map

System Operations

Phase	Process	Data Outcome
1. Initialization	Intake	Smart Contract created with Buyer requirements
2. Selection	Discovery	Multi-media gallery presented; specific plot locked
3. Verification	Due Diligence	Legal audits performed; DD report hashed to IPFS
4. Settlement	Fiat Bridge	Cryptocurrency converted to KES; Seller paid offline
5. Registration	Registry	Statutory transfer documents filed at Land Registry
6. Conclusion	Closure	Final title scan provided; facilitation fee released
