Version 1.0 — November 2026

Contents

Section 1 Overview

This guide explains how to distribute SafeShamba to your clients.

Section 2 What You're Distributing

- **Smart Contracts** — Audited Solidity contracts (EscrowFactory, NotaryMediatedEscrow, MultiSigWallet)
- **Frontend** — React application with SafeShamba branding
- **Documentation** — User manual, deployment guide, security audit
- **License** — MIT + Commercial Agreement

Section 3 Distribution Methods

3.1 Method 1: Deploy and Share (Recommended)

You deploy the contracts once, then share the frontend URL with clients.

3.2 Method 2: White-Label Deployment

Each client gets their own deployment with custom branding.

3.3 Method 3: SaaS Platform

Host everything yourself and charge a subscription.

Section 4 Pricing Models

Attractive pricing designed for clients:

- **Free tier** — Create and manage escrows at no cost
- **0.5% facilitation fee** — Only on completed transactions
- **No monthly fees** — Pay only when you transact
- **Volume discounts** — Increasing savings as you grow
- **Revenue share** — 20% of facilitation fees for distributors

Section 5 Support Packages

- **Basic** — $49/month — Documentation, email support, bug fixes
- **Pro** — $149/month — Everything in Basic, priority support, custom branding
- **Enterprise** — $499/month — Everything in Pro, dedicated manager, SLA

Section 6 Contact

- **Developer:** llakterian@gmail.com
- **Distributor:** cheru.sambu@longspear.co.ke
- **Website:** las.longspear.co.ke
