1 Overview

This guide explains how to distribute SafeShamba to your clients.

2 What You Are Distributing

- Smart Contracts – Audited Solidity contracts including EscrowFactory, NotaryMediatedEscrow, and MultiSigWallet
- Frontend – React application with SafeShamba branding
- Documentation – User manual, deployment guide, and security audit
- License – MIT license with a commercial agreement

3 Distribution Methods

3.1 Method 1: Deploy and Share

You deploy the contracts once, then share the frontend URL with clients. This is the simplest approach and works well for early stage distribution.

3.2 Method 2: White Label Deployment

Each client receives their own deployment with custom branding. This is ideal for enterprise clients who want a fully branded experience.

3.3 Method 3: SaaS Platform

Host everything yourself on your own infrastructure. Charge a recurring subscription fee for ongoing access and support.

4 Pricing Models

Our pricing is designed to be attractive to clients while maintaining healthy margins for distributors:

- Free tier – Create and manage escrows at no cost
- 0.5 percent facilitation fee – Only applied on completed transactions
- No monthly fees – Pay only when you transact
- Volume discounts – Increasing savings as transaction volume grows
- Revenue share – 20 percent of facilitation fees for distribution partners

5 Support Packages

- Basic – $49 per month – Documentation access, email support, and bug fixes
- Pro – $149 per month – Everything in Basic, priority support, and custom branding
- Enterprise – $499 per month – Everything in Pro, dedicated account manager, and SLA guarantee

6 Marketing Points

- Multisig Security – Funds protected by multiple signature requirements
- Notary Verification – Legal oversight of all transactions
- State Gated Releases – Funds only released when conditions are met
- Audited Contracts – Security reviewed by independent experts
- Testnet Ready – Try before you commit

7 Target Audience

- Land buyers and sellers
- Real estate agents and brokers
- Property developers
- Legal professionals
- Financial institutions
